

WALLMATE 32B

In-Wall Flat Panel Mounting System

FOR DISPLAYS UP TO 300 LBS

Wallmate 32B integrates the back box, display mounting plate, and AV device mounting into one complete system while maintaining a thin display-to-wall profile.

- Thin wall to display profile helps achieve ADA compliance.
- Manufactured with 11 to 14-gauge steel in the USA to create a rigid mount that will remain stable and level.
- Only simple tools such as a drill, screwdriver, and Allen key are needed to mount the system.

Universal mounting plate mounts most displays with non-standard VESA patterns without custom components or a complex installation process.

X-ARM system makes the display feather-light and easy for the end-user to easily pull and push the display to access the rear equipment.

Wallmate 32B Product Specifications

Wallmate 32B Kit with Universal Mounting Plate (as shown in images)

Min. Landscape Panel Size	55" - May be covered by some 50" panels
XARM Opening Distance (wall to back of display)	9.6"
