

WALLMATE ON WALL X-ARM

On Wall Flat Panel Mounting System

FOR DISPLAYS UP TO 225 LBS

The Wallmate W32B with an OFFSET mount is an on wall system designed for flat panel displays, while maintaining a lower profile, and single person service.

- Manufactured with 11 to 14-gauge steel to create a rigid mount that will remain stable and level.
- Installation only requires simple tools such as a drill, screwdriver, and allen key.
- Mounts directly to wall surface.

Peripheral storage space makes it easy to mount AV gear behind the display.

Rapid deployment quick-remove peripheral plates enable faster and more reliable roll outs by facilitating AV equipment being pre-dressed, and pre-tested.

Wall mount plate has been designed to allow use of common standard Wallmate x-arms and accessories.

Includes touch kit with magnetic latch to hold unit stabled and closed on imperfect walls. X-arm includes plumb/leveling feature.

OFFSET mounting interface mounts most displays with VESA patterns, 200 x 200 to 600 x 400.

Slim X-arm system makes the display seem feather light, enabling easy, and safe service.

Wallmate W32B-XMS-OFFSET Product Specification

Min. Landscape or Portrait Panel Size	50" L / 65" P
Max Recommended Display Size Dia. 16:9	75" ³
Max display size dia. 21:9	82"
