

CAMERA BOX

Recessed Camera Mount FOR SINGLE LARGE CAMERA PTZ CAMERAS

The recess camera box holds a single PTZ camera to be mounted with a reduced depth and clean appearance.

- 3.825" recess allows for reduced in room depth of PTZ cameras.
- Ultra clean appearance with single piece bezel, recessed and flush screws and fastener, and cavity space for transmitters and cabling.
- Available in black/white powder coat, or primer finish for on site painting.

Separate in wall box allows for preinstall during dirty construction.

Removable device mount plates allows for camera flexibility and future replacements and model changes.

Orientation: able to be install upright or inverted.

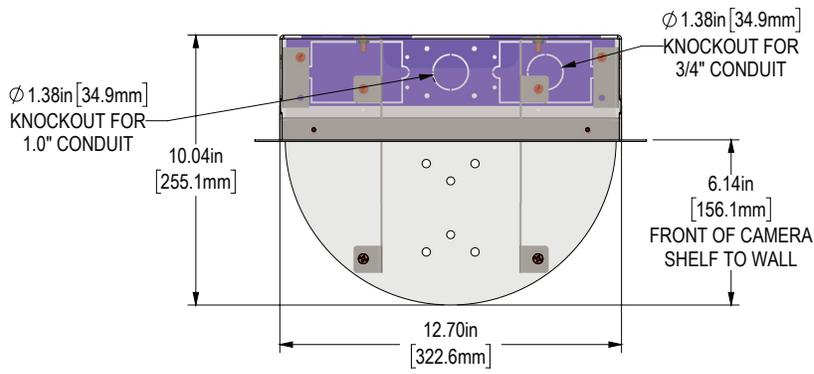

Oversized rear openings accommodate two 1-gang box knockouts
