

CAMERA BOX

Recessed Camera Mount FOR DUAL CAMERA PTZ CAMERAS

The recess camera box holds a dual set of PTZ cameras to be mounted with a reduced depth and clean appearance.

- 3.825" recess allows for reduced in room depth of PTZ cameras.
- Ultra clean appearance with single piece bezel, recessed and flush screws and fastener, and cavity space for transmitters and cabling.
- Available in black/white powder coat, or primer finish for on site painting.

[Separate in wall box](#) allows for preinstall during dirty construction.

[Removable device mount plates](#) allows for camera flexibility and future replacements and model changes.

[Rear storage](#) area accommodates narrow single gang box/cover plate and conduit knock outs.
